5. Sunny Group (VIC) Pty Ltd will not be liable for the cost of installation or removal of any unit.

## • PRODUCT CARE AND MAINTENANCE

### For Solid Surface

Regular cleaning will assist to keep your solid surface looking fantastic and reduce wear and dirt build up. Spills should be cleaned promptly. Clean with a mild detergent or soapy water and a soft cloth, sponge or non-scratch scourer.

Important notes: It is important that the cleaning instructions for Solid Surface are not carried out on the alternate material. Damage may occur which will void your warranty.

- (a) For stubborn marks start with the non-scratch scourer and a mild detergent, if required use a diluted very mild abrasive cleaner cleaning in light circular motions.
- (b) For extreme marks and light scratches, a very light buff in circular motions using the finest grade sand/glass paper will restore the surface. A heavier grade of sandpaper will scratch the surface which can be removed by then using a light sand paper. Avoid applying excessive pressure or clean/rub the same area for a prolonged time unless repairing a scratch or damage.

Always test 'non scratch' and 'mild abrasive' products in a non-conspicuous area first to ensure suitability as brands can differ.

To maintain a uniform appearance, you may need to clean the entire surface. Never use sharp products such as steel wool or aggressive, commercial grade / strong cleaners or chemicals (e.g. acetone, trichloroethylene, acids, and caustic soda) as these may damage and scratch the surface. For best results always finish by wiping surface clean of all detergents and dry with a soft clean cloth.
